PHANTOM SOAR | Executive Incident Report

Generated: 2026-10-09 14:54:48 UTC | Platform Version: 2.0.0-Enterprise

Incident ID:	**ALERT-0057**	**Severity:**	**MEDIUM**
Source SIEM:	Wazuh SIEM	**Status:**	**CONTAINED**
Rule ID:	WAZUH-PHISH-100340	**Calculated MTTR:**	**1.27 seconds (SOAR Automated)**
Detection Time:	2026-10-09T14:39:47	**SOAPA Automation:**	HITL (Analyst Approved)

1. SANS PICERL Lifecycle & Threat Classification

Phase Status: Containment Completed & Verified | **SANS IR Phase:** Containment & Eradication.
The automated SOAR orchestrator intercepted the Wazuh detection telemetry, extracted threat IoCs, evaluated Threat Intelligence reputation scores, and triggered automated perimeter & host containment.

Tactic	Technique	ID	Target / Vector
Impact / Execution	Suspicious Inbound Email with Credential Harvesting Link	**T1486 / T1059**	Production Endpoint & Host Subnet

2. Threat Intelligence Scorecard (TIP)

Max Threat Score:	**48 / 100 (Critical Risk)**	**VirusTotal Verdict:**	**Confirmed Malicious (64/70 Engines)**
AbuseIPDB Confidence:	94% Abuse Probability	**C2 Infrastructure:**	Known Ransomware / Cobalt Strike Beacon

3. Extracted Indicators of Compromise (IoCs)

Type	Indicator Value	VT Threat Score	Verdict
URL	http://evil-phishing-login.secure-bank.xyz/verify	**48/100**	Suspicious
IP	45.33.32.156	**45/100**	Suspicious

4. Automated Containment & Playbook Execution Logs

Timestamp	Action Type	Target / Connector	Status
2026-10-09T14:54:48	**isolate_endpoint**	Perimeter / Host EDR	**Success**
2026-10-09T14:54:48	**terminate_process**	Perimeter / Host EDR	**Success**
2026-10-09T14:54:48	**block_ip (45.33.32.156)**	Perimeter / Host EDR	**Success**
2026-10-09T14:54:48	**terminate_session (sec_operator)**	Perimeter / Host EDR	**Success**

5. Eradication & Post-Incident Action Items

1. **Credential Invalidation:** Force password resets and revoke active OAuth tokens for involved users.
2. **Forensic Preservation:** Retain memory dumps and EDR sensor telemetry for offline artifact extraction.
3. **Signature Distribution:** Distribute extracted hashes to perimeter proxies and DNS firewalls.
4. **Jira Tracking:** Incident ticket filed under SEC project. SLA compliance recorded within threshold.

Automated SOAR Approval: SYSTEM / HOTL Engine **Lead SOC Analyst Signature:** _____
